

YOU'RE INVITED

Take a look at our favorite stationery designs for fashionable summer weddings.

It's island time according to this beautifully textured suite by **Spark Impress**, which teams creamy cotton paper with Japanese cane. Inks in shades of melon, sunshine, and mocha add a laidback infusion of color, and a folded, die-cut seashell card offers a detailed rundown of wedding-related events. A matching tag ties everything together for a look that's breezy without seeming excessively casual. *Shown here: "Mia" invitation suite, including layered invitation, response card, and die-cut event card; letterpresslove.squarespace.com, 866.594.7113.*
