The Story

It was an amazing pleasure to help Danielle and Erik celebrate their wedding. They were high school sweethearts who had spent the last 4 years in different states while Erik went to college. From the very beginning Danielle knew her color palette and knew that she wanted chandeliers everywhere. We decided on a design inspired by the sweetness and elegance of Marie Antoinette, using a palette of light blue, soft blush, peach, ivory and gold.

The ceremony took place at the church the bride grew up at, Santa Ynez Valley Presbyterian. From there, guests were shuttled to the reception. Having grown up in the area, they decided to have their reception at Tinetti Hermanas Winery. Because they loved the outdoors, our cocktail hour was held outside under the huge oak trees. We hung crystal chandeliers from the trees and brought in amazing white button-tufted furniture to set up the space.

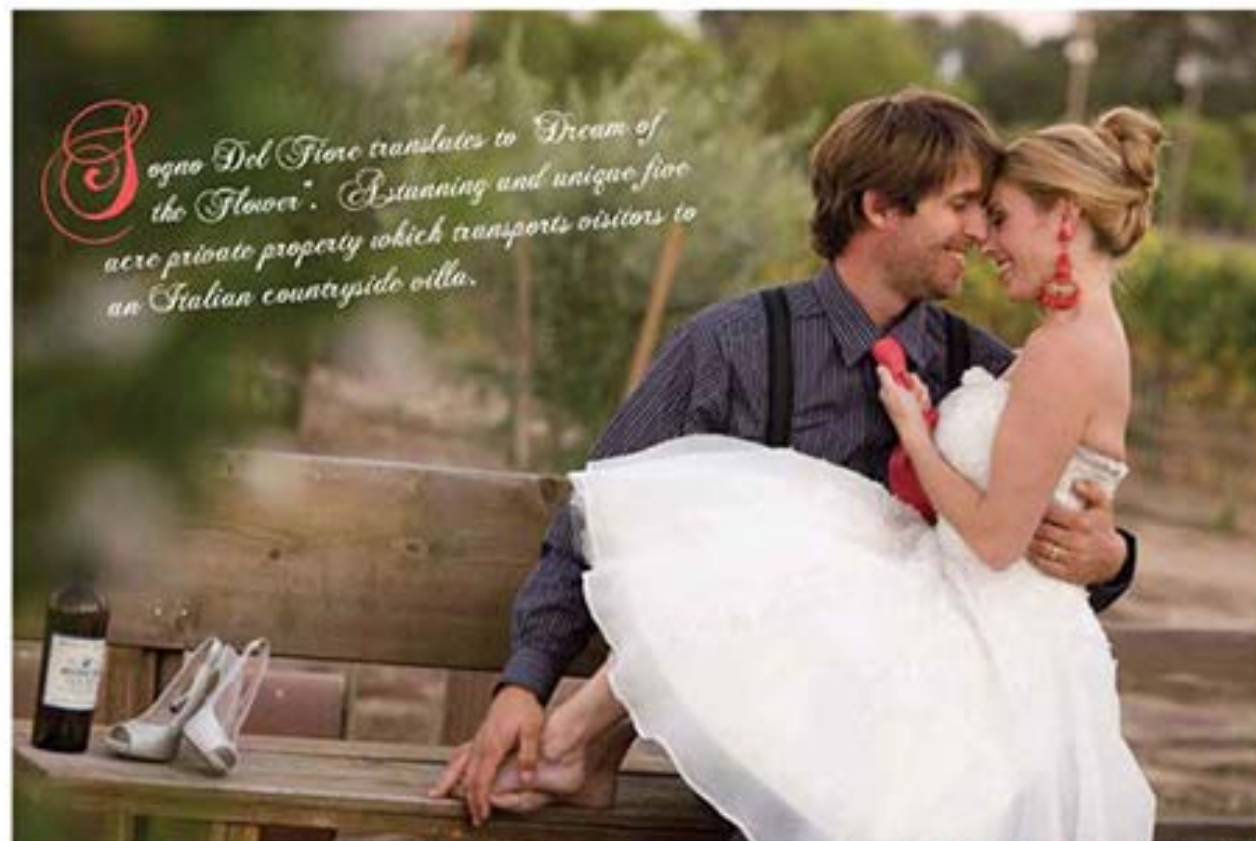

With the help of Classic Party Rentals and Bella Vita Designs, we created the most amazing tent completely draped in ivory cloth, with chandeliers hanging everywhere. Guests enjoyed the dinner reception through a smaller entry tent where their seating assignments sat on a table covered in white china mats. Inside the tent, guests sat at square tables covered in light lavender blue Duponque linen and the bridal party sat at a long table covered in the beautiful Morocco linen. The florals were yummy arrangements of blush, peach and ivory peonies, garden roses and hydrangeas.
